

METABET

PITCH DECK

INTRODUCTION

The future of gambling will be driven by the decentralisation of Play To Earn, P2P platforms, trustless contracts which will automate these functions for users to freely play their favourite games. Decentralised online gaming platforms have not been tapped into or efficiently delivered to the Defi community. Encompassing anonymity and financial freedom to do as **you choose Metabet will provide its users with this freedom of choice.**

Digital currency is rapidly expanding into the Metaverse and GameFi. Picture yourself as a Poker player or take a punt at the Slots machine before exploring Metabet 3D environment whilst socialising with friends. The Metabet ecosystem will be ever-evolving. Our casino aims to be a one-stop shop for DeFi gamblers from walks of life.

The very low over heads required to operate an **Online Casino reflect positively on the profit margins as opposed to live Casinos.** Therefore, the profits generated by such an ecosystem will reflect in staking rewards and liquidity further providing a financially stable platform to stake, buy or play in the various Casino games.

VISION & MISSION

Metabet's vision and values are simple: **pioneering a Play To Earn/Gamefi Casino Ecosystem**. We recognize that many online Casinos in the crypto and the online space are limited in their presentation and game mechanics.

We feel that the evolution in Web 3.0 and Metaverse has been remarkable and its integration into the real world is inevitable.

The missing element in this space, is the inception of a fully immersive 3D environment with a pathway into the Metaverse, Providing players a truly unique experience.

Metabet will deliver much more than a Casino environment, P2E game, or metaverse. We will provide a comprehensive experience. Every one of our players will have the **freedom to play, socialise in an environment free from governing bodies**

UTILITIES AND USE CASE

NFT AVATARS

Metabet will introduce a special collection of 999 NFTS called the Poker Face Collection.

METABET 3D - P2E CASINO

This will have Roulette Tables, Texas Holdem, Black Jack and 3 versions of Slot machines.

CRYPTO LOTTERY

A special collection of 999 Avatar NFTs will be released.

METABET METAVERSE (CASINOVERSE)

A full Metaverse around the Metabet Ecosystem.

NFT AVATARS

Metabet will introduce a special collection of 999 NFTS called the **Poker Face Collection**, which will exclusively release on Voxel X powered NFT Marketplace SuperKluster.

The 999 Poker Face Collection, will be the first iteration of the Metabet avatars with the first 99 featuring special avatar flairs, which includes additional hat, glasses and cigar features. **We are extremely excited that our Poker Face Collection will have real use case within Metabet 3D P2E blockchain Casino** and are already being tested within live game play

METABET 3D - P2E CASINO

A casino environment built around the Metabet Ecosystem as a phase one release. This release will have Roulette Tables, Texas Holdem, Black Jack and 3 versions of Slot machines.

An environment which would allow NFT avatars to engage with various games one on one and interact with other players. The Metabet 3D Casino will be the phase one release pre Metaverse environment. We will hold monthly tournaments and staking alongside this release.

CRYPTO LOTTERY

We will then expand on the current games and add further to our **3D Casino Environment**.

Additionally, during this two phases we **will introduce a “Crypto” style lottery** in the native token \$MBET.

Users will be able to partake by purchasing a ticket within the 3D Casino environment and be in the running for a jackpot. With the jackpot climbing if not won.

METABET METAVERSE

A full **Metaverse** around the Metabet Ecosystem.

- ✔ Own your piece of Casino Land
- ✔ Be part of the online Casino World and tap into endless opportunities

CasinoVerse will have many features that will complement the Metabet Ecosystem and Community. More features regarding CasinoVerse will be released as development around these advances.

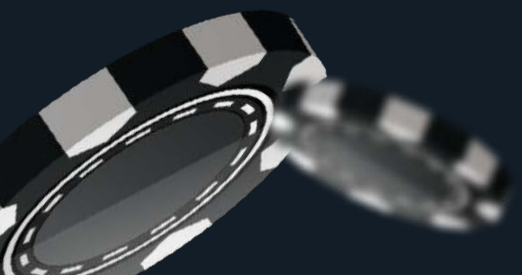

\$MBET TOKEN

\$MBET will be the **primary token** for the whole ecosystem.

- ✓ With a max supply of 100,000,000 Tokens no more tokens can be minted.
- ✓ Liquidity locked till 30/07/22 with further locks to take place.

A re-work of the existing tokenomics for the P2E structure have gone through a review for commercial viability that would ensure a vibrant and an ever evolving ecosystem. 100% of the house winnings go back to liquidity for community rewards (via stacking). As a result, the casino will charge a transaction fee of 1.5% for marketing and further development of the underlying environment.

\$MBET TOKEN

The APY and percentage of house winnings for staking will be algorithmically determined & will factor in the following variables and will evolve and fine-tuned over time.

- ✓ Total Revenue from house winnings
- ✓ The total weighted Stake for individuals (ie share of % of pool from house winnings)

This will ensure a financially stable ecosystem for staking, growth & development utilising profits rather than a set supply of \$MBET tokens dedicated for staking.

STRATEGIC PARTNERSHIPS

Metabet officially listed onto **Voxel X**
Network NFT, GameFi & Metaverse
Partnerships

Metabet is committed to creating a fun and rewarding Casino ecosystem, by developing a suite of on-chain gaming options, Metabet will give their members a way to participate in the play-to-earn revolution via various gambling games in our 3D environment.
